Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant attempted to clarify the claim invention by indicating that there are actually two servers in the instant application, one is outside the VPN and one is within the VPN. Applicant alleged that the instant cited art of records does not provide the two servers. The examiner disagrees, in the office action filed back in 02/26/07, has clearly mapped out two servers one is within the VPN (0060 and 0101) in Futon, and AAPA there are server within the VPN (page 1-6), therefore, the combination of the two references has satisfied the claim inventions. Further arguments requires further search and considerations.
